	4102	White	Quick loading cord lock & casing & end pulley Loose Box 50 Box 100	

Quick Cord Lacing

Lacing the cords is no longer a hassle with the removeable side housing. One side is removeable, allowing easy access to the cord locking mechanism, cords can then be laid through the mechanism. This does away with the annoying job of feeding cords through a small gap in the rollers.

The cord lock allows up to six 1.4mm cords to be used.
